INTRODUCTION

This course allows Health Science and Exercise Science majors to experience hands-on training in an organizational setting, under the supervision of highly qualified professionals in their chosen field of study. Students usually complete the internship during the summer between their junior and senior year. With the exception of students following the Physical Education/Health/Coaching Pattern, all Exercise Science and Health Science majors are required to complete the Field Experience as an undergraduate, at an off-campus agency/organization within their specific pattern area. (Physical Education/Health/Coaching students will complete a more intense teaching internship as part of their graduate degree requirements after they have been accepted into the MAE program.)

The field experience requires a minimum of 200 clock hours of experience (For example, 10 weeks @ 20 hours/week or 5 weeks @ 40 hours/week) and a series of prerequisite courses, which vary with each experience. The student must follow the procedures in the application process before enrolling. Sixty (60) hours is the minimum number of hours a student may work at any ONE site.

ELIGIBILITY REQUIREMENTS

In order to be eligible for the field experience, the following must occur:

• Attend two mandatory meetings (one in the fall, one in the spring, prior to summer enrollment)
• Junior or Senior status (minimum 60 hours completed)
• Consent of Advisor and Department Chair
• Health Science majors: HLTH 366 is a prerequisite for Field Experience
• Major GPA 2.5 or above
• Cumulative GPA 2.0 or above
• Declare pattern at least one semester prior to enrollment, and successfully complete any courses that fulfill pattern course prerequisites

Note for Health Science Students:

Health Science students who are completing HLTH 370 must comply with these guidelines. Health Science students who need to complete HLTH 460 because they are on the Fall 2008 catalog must also attend one of the two meetings listed above. (HLTH 460 is a 320 hour Field Experience in a Health Education setting.) Students who plan to complete HLTH 250, Public Health Practicum, a 50 hour Field Experience in a clinical setting are not required to attend the meeting. However, Dr. Donahue will be at both meetings to help Health Science majors understand the requirements and options if you are unsure which one applies to you.

Enrollment prerequisites; placement procedures; student, supervisor, and agency responsibilities; student and agency evaluation reports are listed in this Field Experience Manual for your perusal. This manual and accompanying resources are located on the HES website at http://hes.truman.edu/fieldexp.asp.

All forms and assignments required in the field experience should be returned to:

ES/HLTH 370 Field Experience  (660) 785-4456
Truman State University  (660) 785-7492 Fax
Health and Exercise Sciences
Pershing Building 334
100 E. Normal
Kirksville, MO 63501
HES370@truman.edu
RESPONSIBILITIES OF THE COOPERATING AGENCY

1. To the University:
   a. Criteria of supervisor:
      1) Worked a minimum of one year in the present position
      2) Certified under national, state, or professional association regulations or standards where appropriate
   b. Criteria of programs:
      1) Maintain a comprehensive and balanced program to provide broad, multiple exposures
      2) Show evidence of long-range and short-term goals in administrative and program services

2. To the University and Student:
   a. Provide a supervisor with time committed expressly for the purpose of supervising the student
   b. Provide a program to meet the learning objectives of the student
   c. Conduct a formal evaluation with the student at least one time during the field experience
   d. Supervise and assist students with field experience projects and written assignments
   e. Recognize that services, mileage reimbursement, and/or compensation to the student are acceptable (international students should check with the Truman State University International Student Affairs Director regarding their visa status and work eligibility in the US)

3. Complete the following forms:
   a. Agency Acceptance/Rejection Form
   b. Final Field Experience Evaluation Report
RESPONSIBILITIES OF THE STUDENT

1. **The student agrees:**
   a. To accept and adhere to the rules and regulations governing the agency or institution
   b. To accept the agency’s philosophy, methods, leadership, and program
   c. To become an integral and participating member of the agency staff
   d. To prepare for the periodic agency supervisor-student conference
   e. To notify the agency supervisor well in advance in cases of anticipated absences from work
   f. To consult with the agency supervisor when confronted with problems that cannot be satisfactorily solved by oneself
   g. To plan thoroughly and well in advance for all assignments
   h. To do the best job possible to carry out all assignments
   i. To conduct oneself professionally and personably at all times in contacts with staff and clientele
   j. To evaluate each meeting or activity that is planned and/or conducted by the student
   k. To evaluate skills in establishing positive interpersonal relationships and in achieving personal fulfillment and growth

2. **The student is responsible for:**
   a. Attending **two mandatory** field experience meetings with the university supervisor(s), one in the fall semester and one in the spring semester prior to summer enrollment. Two meeting options will be established for each semester to accommodate the scheduling needs of students. If the student’s schedule cannot accommodate either option, the student must contact the HES Department Office to make an appointment with the HES Department Chair PRIOR to the meeting dates to discuss material to be missed. If this alternative is selected, the student will be **docked 5%** when the final ES/HLTH 370 grade is determined. A maximum of 10% could be deducted if a student makes arrangements to meet with the HES Department Chair in lieu of attending the fall and spring meetings. Any student who is enrolled in a study abroad program during the fall or spring semester still must arrange to meet with the Department Chair, however will not be docked percentage points. **Failure to attend either the fall or spring meeting without prior arrangements will result in ineligibility to enroll** for the class.
   b. Arranging conference time with agency supervisor and university supervisor for a site visit, if applicable.
   c. Contacting the university supervisor when concerns or problems are not solved on the site
   d. Meeting all assignment deadlines
   e. International students should check with the International Student Affairs Director regarding their visa status and work eligibility in the United States.
RESPONSIBILITIES OF THE UNIVERSITY SUPERVISOR(S)

1. The university supervisor(s) will:

   a. Insure that the student has met all requirements before participating in field experience
   
   b. Make all official arrangements with cooperating agencies and give final approval of the agency for field experience participation
   
   c. Arrange time, date, and location for field experience meetings
   
   d. Visits by a university supervisor will occur based on the location of the cooperating agencies. Whether a visit occurs will not have any bearing on the grade of the student. The university supervisor also has the option to communicate by conference telephone calls or e-mail.
   
   e. Evaluate student’s field experience--**Grading**:

   70-79.9% C
   
   60-69.9% D      
   59.9% or below F

   **Please Note:** Students who are dismissed from their agency at the supervisor’s request will automatically have their final grade reduced by 15%. The students’ new and old agency evaluations will be averaged.

2. The university supervisor is responsible for:

   a. Making all final decisions regarding placement of field experience students
   
   b. Maintaining communication with the agency concerning their involvement in our field experience program
   
   c. Making on-site visitations during the field experience as deemed appropriate
   
   d. When possible, providing an opportunity for representatives of the agencies or institutions to meet with each other and with university representatives at Truman State University
SUBMITTING WRITTEN ASSIGNMENTS

Three written assignments must be completed as part of the field experience course:

1. Summary Logs for each 40 hours of work: Due within 5 days of last date covered^ 
2. Site Information and Modified Objectives: Due within 10 days of start date on file† 
3. Case Study, Medical Brief, or Comprehensive Project: Due within 14 days of end date on file^†* 

^All assignments for graduating seniors (or other students who wish to have a grade determined by the end of the summer semester**) are due by Friday, July 24, 2009 or the above deadlines, whichever comes first.

†Date on file reflects the date submitted on the Final Internship Information form. It is each student’s responsibility to notify the HES Office immediately if start or end dates change. The HES Office will not accept “end date” changes that push the end date later than the official date on file for that student, even if that means the assignment is received late according to the data on record.

(For example, a student indicates an “end date” of July 15 on the Final Internship Information form, and enrolls for the class. The student contacts the HES Office on July 18 to notify us that his/her end date has changed to July 20. The due date for the final project is still July 28, because the student did not notify us until after the “end date on file” that it had changed. If the student submits the final project after July 28, the assignment will be considered late, and 5% will be deducted for lack of timeliness.)

Students who will continue working at an agency after completing 200 hours need to make sure the “end date” on file is the date in which the 200th hour is reached.

*The final deadline that any assignment will be accepted is Tuesday, September 1, 2009 at 12:00 noon, regardless of end date. Assignments received after this deadline will receive zero credit.

**Students who wish to have an official grade determined by the end of the eight-week summer semester (June 1-July 24) must have all written assignments submitted by July 24, 2009; and must ensure that the agency has submitted the final evaluation report no later than Wednesday, July 29, 2009. Otherwise, a grade of “IC” (Incomplete) will be given, and will not be changed to an official grade until the final project is submitted and graded and the agency evaluation is received.

TIMELINESS represents 24% of the final Field Experience grade. All written assignments must be typed and submitted by one of the following methods:

1. BLACKBOARD: (Preferred Method) Log onto TruView (http://truview.truman.edu); Click on the Blackboard tab and click “Login”. If you have used Blackboard before, enter your username and password. If you have never used Blackboard, sign in with your Truman username and social security number. Click Login. Click on SUM09: ES/HLTH 370 Field Experience under “My Courses”. To submit an assignment, please do the following:

   a. Save your assignment to your computer or disk as either Microsoft Word (.doc) or rich text file (.rtf) format. No other formats can be accepted or retrieved. The file name must indicate your first and last name and assignment description

      Save word document as one of the following respective examples

      • “Jane Doe 0-40 hour log.doc”
      • “Jane Doe case study.doc” or
      • “Jane Doe site info.doc”

   b. Click “Tools” on the bottom left side of the page
c. Click “Digital Drop Box”
d. Click “Send File”**
e. Browse for your file using the “Browse” button
f. Enter your Title as the exact name of your file “Jane Doe 0-40 hour log”
g. Enter any comments if desired
h. Click “Submit”
i. A confirmation screen will appear indicating your assignment has been successfully sent to the instructor
j. Click OK
k. Your assignment will now appear in your digital drop box, indicating the date and time which you submitted your assignment. This is your confirmation that your assignment has been successfully submitted. The date of submission will be used to determine whether your assignment is on time based on your personal due dates.
l. As you continue to submit assignments, each assignment will remain in your digital drop box and will be accessible only by instructors/coordinators of the course.

**Note: If you use the “Add File” button to upload an assignment rather than the “Send File” button, please note that your assignment will appear in your drop box, but will not be sent to the instructor until you go through the “Send File” process.

2. E-MAIL: (use only if for some reason you are unable to use BlackBoard) HES370@truman.edu. The e-mail subject line and attached file name must indicate your name and assignment description (i.e. “Jane Doe 0 - 40 hour log” or “Jane Doe case study”, etc.) The assignment must be submitted as an attachment in MS Word (preferred) or rich text format only. You will receive a confirmation e-mail back indicating the date that the HES Office received your submission. If these guidelines are not followed, the e-mail will be sent back requesting proper format. The assignment will then be forwarded to field experience instructors for grading and further feedback.

3. LAND MAIL: Assignment must be postmarked by the date due and mailed to:
   Truman State University
   ES/HLTH 370 FIELD EXPERIENCE
   Health and Exercise Sciences
   Pershing Building 334
   100 E. Normal
   Kirksville, MO  63501

4. FAX: (660) 785-7492 (Please use this method only if you are otherwise unable to use any of the three options above.)

Academic Integrity is a standard set for this course. You will be expected to act in accordance to the rules set forth in the Truman State University Student Handbook. The Truman State University Student Conduct Code (8.020.01) defines the term “academic dishonesty” to include, but not be limited to any one of the following acts: cheating, fabrication, facilitating academic dishonesty, and plagiarism. (Plagiarism means presenting the work of others as your own work: copying material from a published text (including an online text) without giving the writer proper credit; allowing others to write or rewrite your assignments; copying the work of other students and passing it off as your own, and so on.) A student found to have not upheld the expectations for academic integrity is subject to failing this course and being reported to the Vice President for Academic Affairs and the University Conduct Officer.
CONTENT OF WRITTEN ASSIGNMENTS

1. LOG ASSIGNMENTS: The first written assignment is the field experience log that provides a summary of each 40 hours worked. Each log is to be typed, formatted as per example in Appendix A, and submitted within 5 days of every 40 hours of work completed. (For example, if you begin your field experience on June 1, and you complete 40 hours by June 5, your first log is due 5 days later, or no later than June 10. However, if you begin your field experience on June 1, and it takes you until June 12 to complete 40 hours, then your first log is due 5 days later, or no later than June 17; ... and so on for each log submitted.) Cutting and pasting extensively from a previous log(s) is not conducive to receiving a good grade on the log assignment.

On all assignments including the logs—no information that violates confidentiality or privacy is expected.

Each log (5 logs total) must include the following components:

a. Your Name, Agency Name, Agency Location (City, State), Range of hours (i.e. 80-120) and specific dates covered by log to appear on first page of each log submission

b. Summary of your responsibilities during the period covered (if you write about your involvement with a client, please use only first names or initials, never full names)

c. What general and/or specific learning took place during the time period (learning related to career or learning in general)

d. Your impression of your assignment (feeling about duties, etc.)

e. How the activities related to your career path and your five learning objectives (be specific and highlight or underline the appropriate objective to which you are referring). Health Science students must specifically indicate CHES area and competency code when indicating what objective was met.

f. On your final log (160-200 hour) you should summarize the progress you made on all of your learning objectives. This provides some closure for you as you reflect over the course of the field experience and helps the faculty member understand what you did or did not accomplish during the entire experience. You do not lose points for failing to accomplish an objective, but you should consider and discuss why it was not met.

2. SITE INFORMATION AND MODIFIED OBJECTIVES: The second assignment provides information about your site location and your objectives. This assignment is due within 10 days of the start* of your field experience. (For example, if you start your field experience on June 1, this assignment is due on or before June 11. *If your start date changes after you enroll for the course, it is your responsibility to notify the HES Office.)

If you choose to complete your field experience at multiple sites, a site information assignment must be completed for each site and is due within 10 days of the start at each facility. You must also submit objectives for each site indicating what changes have been made (if appropriate.) *See page 10

This assignment must be typed in APA style, 5th edition and include a title page, table of contents, headings, and page numbers. (An example title page is included in Appendix A. For help with APA format, please refer to the APA GUIDE on our HES website at http://hes.truman.edu/fieldexp.asp.)

After reading your site information assignment, your university supervisor should have a clear impression of your field experience site and the program with which you are going to be involved. The five learning objectives will serve as discussion points during your site visit. Please refer to Appendix E for information on writing learning objectives. Health Science majors will also want to refer to the following link: http://hes.truman.edu/assets/pdf/Health_Educator_Competencies_Appendix.pdf for further information on the CHES competencies.
The required components should be organized in descriptive paragraph format as a running essay and include information as follows: *Use in table of contents*

a. Work environment – provide a description of the following:
   1) name of facility, facility location, including description of town or city (not just street address), purpose of facility
   2) source of general operating budget – what are the sources of revenue?
   3) average number of clients handled per day
   4) clientele served (gender, ethnicity, injury type, age, etc., etc.)

b. Overview of program to include the following:
   1) facility size-description of layout-may add a diagram to illustrate
   2) equipment
   3) number of staff members and qualifications (for example, degrees, certifications, licenses, years of experience) Be sure to include support staff
   4) programs of services offered
   5) program philosophy/mission statement
   6) program objectives (not to be confused with your learning objectives)

c. List your five original learning objectives and the five final objectives. Based on what was discussed with your agency supervisor, briefly explain why you did or did not make changes to the objectives

All of the above required components need to be addressed in the site information assignment. If any of the requested information is not available, you need to document as to why it is not available and your efforts to find the information.

3. FINAL PROJECT: The third assignment is to complete one of the following final projects. Submission of the third written assignment must be received within 14 days of the completion of your field experience (or if you are graduating, by Friday, July 24, 2009, whichever comes first). (For example, if the last day of your field experience is on July 31, then this assignment is due on or before August 14. However, if you are a graduating senior, the assignment is due by July 24.) This assignment must be typed in APA style, 5th edition and include a title page, table of contents, headings, and page numbers. (An example title page is included in Appendix A. For help with APA format, please refer to the APA GUIDE on our HES website at http://hes.truman.edu/fieldexp.asp.)

You must select from one of the following three options, clearly delineating which option you are submitting:

a. Option 1 – Case Study: Follow one client from admission to termination of intervention. The Case Study must have the following information. Do not use any last names in the written report.

   1) Description of the client(s) 
      a) Client(s) goals and objectives 
      b) Pre-assessment (initial data collection and interpretation) 
      c) New objectives based on pre-assessment data 
      d) Client(s) development 
      e) Approaches to help client(s) meet the objectives 
      f) Post assessment results 

   2) Conclusions and Implications 
      a) The strategies work well and why? 
      b) The strategies did not work well and why? 
      c) Tables and charts to support when appropriate
3) References
   a) References cited in the Case Study must be documented

b. Option 2 – Medical Brief: This assignment is to be used by those who are not in a setting in which they work with a client for an extended period of time.

   1) Write a brief describing a condition you observed. Be sure to include:
      a) What was the condition?
      b) What are the common signs and symptoms associated with the condition?
      c) What is the recommended treatment (to include medications if appropriate)?
      d) What precautions or side effects are associated with the treatment protocol?
      e) What is the general prognosis for the condition?
      f) What is the complete recovery success rate?

   2) Be sure to cite sources used and include a reference page

c. Option 3 – Comprehensive Project: Complete a project associated with your field experience area. This project could focus on the development of a comprehensive health care survey, development of a new education program for participants of the program, development of any comprehensive manual to be utilized by the agency after completion of your field experience, etc.

   1) The work must demonstrate an in-depth investigation into the various aspects necessary to have a successful program or to develop a manual that would have a life longer than the internship time interval.
   2) Accompanying this project or manual should be a paper that outlines the steps used to create the submitted work, goals of the work, and who/what resources were used, etc.
APPENDICES
APPENDIX A

SAMPLE LAYOUT OF A SUMMARY LOG

COVER PAGE EXAMPLE FOR SITE INFORMATION/FINAL PROJECT
Summary of responsibilities:
- Identify and thoroughly describe all responsibilities you performed during the log time
- Provide examples that illustrate your specific behaviors relative to each responsibility identified
- Subsequent logs must indicate how new responsibilities differ from previous logs and the interactions with supervisors that led to these changes

Impressions:
- What did you like about your experiences; what did you not like
- To what extent do your experiences reflect what you thought they would
- Provide specific examples of how they reflect and fail to reflect what you expected to experience
- How have your experiences changed the way you look at this occupation

Learning:
- What knowledge and/or skills have you learned as a function of your responsibilities specific to this log
- How does your new information/skills relate to specific courses you have taken to this point
- What classroom content have you applied
- Provide very specific examples that illustrate how classroom content has been applied

Relation of information to five learning objectives:
- Highlight or underline the specific modified objectives met with this log
- Clearly indicate how the responsibility in which you engaged met the highlighted objective

APPENDIX B

FIELD EXPERIENCE CHECKLIST
FIELD EXPERIENCE CHECKLIST--Summer 2009

☐ Attend the mandatory fall pre-experience meeting, held in mid-November. Attendance at this meeting is a prerequisite to enrollment.

☐ Meet with academic advisor to determine whether prerequisites for ES 370/HLTH 370 have been met.
   1. Discuss expectations and potential objectives to be completed for your pattern area (Health Science majors need to specify the CHES competencies met with each objective. Please refer to Appendix E and http://hes.truman.edu/assets/pdf/Health_Educator_Competencies_Appendix.pdf for further information on the competencies.)
   2. Discuss agency possibilities (A listing of work sites used by former students is available on the web at http://hes.truman.edu/fieldexp.asp.)
   3. Complete Application for Field Experience and Major GPA Calculation forms, and turn them into the Health and Exercise Sciences Office by March 4, 2009.

☐ Contact agency (or agencies) and arrange for an appointment to:
   1. Meet with agency supervisor.
   2. Inquire about experience and/or duties provided by the agency.
   3. Inquire as to the prerequisites (if any) required by the agency.
   4. Find out whether the agency will require a criminal background check. Unless otherwise specified by an agency, the criminal background check will be conducted through the Department of Elementary and Secondary Education Department. The form to request the background check is available in the HES Office. You will need to complete the form and bring it into the HES Office with $5.00 to cover the background check fee.
   5. Determine 5 Objectives you would like to personally accomplish through this experience. Deliver one copy to agency supervisor.

☐ Deliver one copy of the Field Experience Manual to the agency supervisor.

☐ Deliver a copy of your Exercise Science or Health Science degree worksheet or degree audit for the catalog year you are following, indicating completed coursework, to the agency supervisor.

☐ Complete the Final Internship Information Form and obtain your advisor’s signature (including 5 Objectives; and Map to worksite if within 200 miles of Kirksville [please also include any unique landmarks to assist in traveling to agency site]. Return materials to the HES Department Office, PB 334.

☐ Attend the mandatory spring meeting. (Check bulletin boards and e-mail for announcement of meeting time and place, usually in mid-April.) Attendance at this meeting is a prerequisite to enrollment.

☐ After all materials above have been submitted, you will receive an e-mail from the HES Office that gives you permission to enroll in the course. You will be allowed to enroll no earlier than May 1, 2009.

☐ Register for ES/HLTH 370 Field Experience during the summer registration period, usually early May.

Absolute final deadline to submit all materials is Reading Day, May 6, 2009

Prerequisites for Field Experience

☒ Attend two mandatory meetings (one in the fall, one in the spring, prior to summer enrollment)
☒ Junior or Senior status (minimum 60 hours completed)
☒ Consent of Advisor and Program Director
☒ Health Science majors: HLTH 366 is a prerequisite for Field Experience
☒ Major GPA 2.5 or above
☒ Cumulative GPA 2.0 or above
☒ Declare pattern at least one semester prior to enrollment, and successfully complete any courses that fulfill pattern course prerequisites
APPENDIX C

APPLICATION FOR FIELD EXPERIENCE

MAJOR GPA CALCULATION: EXERCISE SCIENCE

MAJOR GPA CALCULATION: HEALTH SCIENCE
APPLICATION FOR FIELD EXPERIENCE

INSTRUCTIONS: To be completed by the student, with consultation of academic advisor, by March 4 and returned to HES Department Office, Pershing Building 334.

Name ________________________________ Date ________________________________

Student ID # ________________________________ Semester to Complete Field Experience: _______

Local Address ________________________________________________________________________________

Permanent Address ________________________________________________________________________________

Local Phone# ________________________________ Permanent Phone# ________________________

Major ________________________________ Expected Date of Graduation ________________________

Pattern ________________________________ # Hours Completed in Pattern ________________________

1. Attended Fall mandatory meeting.
2. Completed 60 semester hours.
3. Cumulative GPA is _________, as of __________________ (Date)
4. Major GPA is ____________, as of __________________ (Date)

**Attach a copy of the GPA calculation sheet OR Degree Audit with Major GPA calculation from TruView**

5. Consulted with HES academic advisor, who is ________________________.

I understand during the field experience course that I must meet the full responsibilities of the daily, weekly, and seasonal work schedule of the agency regardless of the hourly schedule. In addition, I agree to inform the field experience coordinator of any changes in my situation as to availability. I further understand that the minimum number of hours I can work at any site is 60. I have not committed a felony or other act that would prohibit my employment with any public agency. I have completed all course requirements; I have the required GPA and will not be taking any course work during my field experience without approval of field experience supervisor and HES Department Chair.

APPENDIX D

AGENCY ACCEPTANCE/REJECTION FORM
AGENCY ACCEPTANCE/REJECTION FORM
Due by March 31, 2009

Student’s Name: _________________________________________________________________

Agency: ________________________________________________________________________

Agency Address: ________________________________________________________________________
Street       City      State    Zip

Student’s Workplace Address (if different than above):
________________________________________________________________________
Street       City      State    Zip

Student’s Immediate Supervisor: __________________________________________________________

Supervisor’s Title: ______________________________________________________________________

Work site Telephone #: ____________________     Supervisor’s E-mail: ______________________

After the student has completed at least 40 clock hours, and if and when feasible, the student will be
personally visited at the agency by a Truman State University Supervisor. As the Agency Supervisor,
how would you like the University Supervisor to interact with you regarding the site visit? Please choose one:

□ I would like an opportunity to visit in person with the University Supervisor
□ I would prefer a telephone conference call from the University Supervisor
□ I would prefer to communicate with the University Supervisor by e-mail only
□ I do not desire a contact from the University Supervisor

The field experience student is required to work in the agency a minimum of 200 contact hours to receive
four semester hours of credit (these contact hours may also include seminars, meetings, conferences, etc.
related to the field).

__________ This agency will accept this student in field experience.

General description of the assignment:

What compensation, mileage, or reimbursement of services will the student receive from your agency? (Not required)

This agency requires / does not require a criminal background check (Please circle one). Unless otherwise
specified by an agency, the criminal background check will be conducted through the Department of
Elementary and Secondary Education Department.

__________ This agency will not accept the student in field experience.

State reason:

Authorized Agency Signature Date (____) Telephone

After the interview, return to: ES/HLTH 370 Field Experience
Health and Exercise Sciences Department
Pershing Building Room 334
Truman State University
Kirkville, Missouri 63501
(660) 785-7492 FAX
http://hes.truman.edu
APPENDIX E

WRITING MEASURABLE LEARNING OBJECTIVES
FOR FIELD EXPERIENCE

FINAL INTERNSHIP INFORMATION FORM
Writing Measurable Learning Objectives for Field Experience

The learning objectives you develop for this course should provide direction for you when reflecting upon and evaluating your field experience. Individualize your objectives for your specific field site. Useful, well-written learning objectives are measurable and address the following four key elements:

1. Audience (Who will learn)
2. Behavior (What is the desired learning outcome)
3. Condition (When learning will occur or the conditions under which the outcome will be observed)
4. Degree (How much, or to what extent, will constitute achievement of the learning outcome)

In other words, your learning objectives must specify “who will learn how much of what by when.” For many of you the phrase, “By the end of my field experience, I will,” should sufficiently address who and when. The challenge is writing measurable objectives that sufficiently address the “what” and “how much.” Using verbs that show action are often more precise and less open to multiple interpretations.

Examples of verbs to use when writing objectives related to knowledge:
identify recognize describe record state write

Examples of verbs to use when writing objectives related to comprehension:
contrast distinguish compare differentiate explain discuss

Examples of verbs to use when writing objectives related to application:
apply operate calculate employ report examine

Examples of verbs to use when writing objectives related to analysis:
analyze distinguish inspect relate conclude examine

Examples of verbs to use when writing objectives related to synthesis:
plan create test develop organize produce
Examples of verbs to use when writing objectives related to evaluation:

measure  revise  critique  assess  determine  select

Examples of verbs to avoid (these verbs are vague and not measurable) and will result in a loss of points:

acknowledge  be aware of  believe  experience  learn
appreciate  be familiar with  enjoy  know  understand

Note: Health Science students must incorporate the responsibilities and competencies of a Certified Health Education Specialist into at least four of the five required objectives (indicate the specific responsibility and competency to which it relates).
Some examples:

A Health Science student who shadows an internal medicine physician might have an objective such as:

By the end of my field experience, I will have identified relevant health education materials for at least five patients with diabetes from two or more valid sources. (Area VI, Competency C)

A Health Science student who shadows an occupational therapist might have an objective such as:

By the end of my field experience, I will have accessed at least 3 of the following databases: Medline, CINAHL, ERIC, BioMed Central, PUBMED and/or PsychINFO to obtain peer-reviewed information for my final project. (Area VI, Competency A)

A Health Science student who works in health care administration might have an objective such as:

By the end of my field experience, I will have identified at least three new volunteer opportunities within the organization to facilitate efficient use of human resources. (Area V, Competency C)

An Exercise Science student who works in Sport and Recreation Management might have an objective such as:

By the end of my field experience, I will have compared the mission statements of at least two national organizations (for example, YMCA, National Recreation and Park Association, National Intramural Recreational Sports Association).

An Exercise Science student who works with an Exercise Physiologists might have an objective such as:
By the end of my field experience, I will have critiqued at least three certifications in the field of personal training.

An Exercise Science student who works with a Physical Therapist might have an objective such as:

By the end of my field experience, I will have written goals for at least three physical therapy patients.

Secondary Supervisor’s Name: (Dr./Mr./Ms.) ___________________________  Credentials: ______
Secondary Supervisor’s Title: ______________________________________________________
Secondary Supervisor’s Telephone: ______________________  E-mail: ______________________

*START DATE: _____________________________  *END DATE: ___________________________

Advisor’s signature indicates they have reviewed the learning objectives and found them to be consistent with the goals of the Field Experience.

Advisor’s Signature: ___________________________  Date: ______________________

*The start and end dates you indicate on this form will directly affect site visit scheduling, as well as your due dates and timeliness grades for the Site Information assignment and the Final Project. If your “start date” or “end date” changes, you must notify the HES Office immediately. The HES Office will not accept “end date” changes that push the end date later than the official date on file for you, even if that means the assignment is perceived late according to the data on record. (See written assignment section of the manual for more information.)

Attach to this form:

_____  List of 5 Objectives you would like to personally accomplish through this experience

_____  Map (with driving directions) to worksite if within approximately 200 miles of Kirksville (include any unique landmarks to assist in travel to the agency site)
APPENDIX F

UNIVERSITY INSURANCE COVERAGE LETTER
December 5, 2009

Dear Agency Supervisor,

This letter provides verification of student liability insurance for students completing a field experience in Health Science/Exercise Science/Athletic Training during the summer 2009 semester.

Ms. Lois Dover from the Truman State University Business Office has informed our Health and Exercise Sciences Program that Truman State University has purchased student blanket professional liability insurance to cover students of allied health specialties performing internships at off-campus locations. The current policy with Chicago Insurance Company is for the period of September 29, 2008 to September 29, 2009 and is purchased through Marsh Affinity Group Services, 1776 West Lakes Parkway, Des Moines, IA, 50398, Policy # AHC-1217980. The amount of coverage is $1,000,000 per occurrence and an aggregate not to exceed $3,000,000. This policy is renewed annually.

The Truman faculty is covered only while instructing students; and Truman State University is covered as an additional insured.

All Health Science, Exercise Science and Athletic Training students are required to complete a field experience for a minimum of 200 hours to fulfill ES/HLTH 370, Field Experience in Exercise Science/Health Science (4.0 credit hours.)

Please feel free to notify our office if you have any further questions.

Sincerely,

Christopher D. Lantz
Department Chair and Associate Professor
Health & Exercise Sciences

Health and Exercise Sciences Home page: http://hes.truman.edu
APPENDIX G

STUDENT EVALUATION FORM
STUDENT EVALUATION OF AGENCY AND FIELD EXPERIENCE

This form is to be filled out by the STUDENT at the conclusion of the field experience, and returned to the HES Department Office, Pershing Building 334, 100 E. Normal, Kirksville, MO 63501.

Name _________________________________________        Date: ______________

Worksite _______________________________________________________________

1. In light of your objectives, has this been a good learning experience for you? Have you been able to approach the accomplishment of your objectives? What have been the most significant values of the experience? What have been the most disappointing aspects?

2. How would you rate this work site as a field experience position (Rate from 1 to 5, with 5 being the highest rating)? Why? What recommended changes would you suggest making it a more meaningful position? (Please be as specific as possible.)
APPENDIX H

AGENCY’S FINAL FIELD EXPERIENCE EVALUATION REPORT
FINAL FIELD EXPERIENCE EVALUATION REPORT

For convenience, this form may be submitted by the agency online at http://hes.truman.edu/fieldexpeval.asp.

Student’s Name: ___________________________   Dates Under Your Supervision: ________________
Supervisor Name: __________________________ Your Position (Supervisor): ________________
Name of Your Agency: ______________________ Today’s Date: _______________________________

Overall Evaluation: Overall, I believe the student’s work performance was equivalent to an academic grade of (circle one):

<table>
<thead>
<tr>
<th></th>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
<th>F</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Excellent (Indicates a grade of “A”)</td>
<td>2</td>
<td>Below average (Indicates a grade of “D”)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Above average (Indicates a grade of “B”)</td>
<td>1</td>
<td>Unsatisfactory (Indicates a grade of “F”)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Average (Indicates a grade of “C”)</td>
<td>NA</td>
<td>No basis for judgment</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

For the following characteristics, please rate the student appropriately, based on your expectations for an undergraduate student intern, using the following scale:

1. ____ **Timeliness and Responsibility**: attendance and punctuality, meets deadlines, willingness to assume responsibility, plans activities well in advance of the program, attends required functions/meetings
   Comments:

2. ____ **Personal appearance**: neat, clean, appropriately dressed in relation to the job
   Comments:

3. ____ **Initiative and Motivational Skills**: enthusiastic, generates or shows interest, shows leadership, looks for additional work
   Comments:

4. ____ **Adaptability, Judgment and Problem Anticipation**: can adjust plans and actions according to developing situations; handles emergency situations, makes common sense decisions, anticipates possible problem areas, works effectively for solutions
   Comments:

5. ____ **Resourcefulness and Creativity**: uses resources well, originates ideas and approaches, makes creative efforts
   Comments:

6. ____ **Evaluation and Self-Improvement**: analyzes weaknesses, searches for more knowledge and experience, inquires about profession
   Comments:
Communications and Professional Relations

7. _____ Written Communications: Conveys ideas clearly, minimal errors, neat, organized
   Comments:

8. _____ Oral Communications: Expresses self well, uses tact, makes points clear to public
   Comments:

9. _____ Attitude towards clients or co-workers: Willing to assist others, cooperative, industrious,
   works harmoniously with others, considerate, courteous, respectful
   Comments:

Knowledge and Skills

10. _____ Task accomplishment: Tasks completed effectively, pursues difficult tasks to completion
    Comments:

11. _____ Skills: Displays knowledge of program skills and techniques in developing activities
    Comments:

Student-Prepared Learning Objectives

12. _____ Learning Objectives: Indicate the degree to which the student accomplished the learning
    objectives presented and modified by the supervisor and student

Please provide any additional information that you feel will be beneficial to the student as they
pursue employment in this area.

Agency Supervisor Signature: ____________________________ Date: _______________________

Further, (please select one)

☐ I have shared this evaluation with the student
☐ I have not shared this evaluation with the student, but hereby give my consent
  to release the results of this evaluation to the student
☐ I have not shared the evaluation with the student, and would prefer that it
  NOT be made available to the student

Please mail completed form to:
